SANSALIU ABDULBASIT ADEYEMO

Career Summary

I'm a frontend developer with two years of experience building user-friendly and responsive web applications. I enjoy turning designs into interactive and seamless experiences, making sure everything looks great and works smoothly across different devices. I've worked closely with designers and backend developers to create well-structured and scalable applications, ensuring that users get the best possible experience. I'm always looking for ways to improve performance, simplify workflows, and stay updated with the latest frontend technologies. My goal is to build clean, efficient, and accessible interfaces that make a real difference.

Employment History

TTA, Nigeria Jan 2024 – Present

Frontend Developer

• Developed and maintained user-friendly, responsive web interfaces.

• Worked closely with designers and backend developers to translate UI/UX designs into interactive web applications.

• Implemented and optimized frontend performance to ensure fast load times and smooth user experiences.

• Integrated RESTful APIs and handled data fetching, state management, and client-side logic using JavaScript frameworks.

• Collaborated with backend teams to ensure seamless communication between frontend and backend components.

• Conducted code reviews, provided feedback, and maintained clean, scalable, and reusable code.

AUTOCREDIT, Nigeria Jan 2023– Jan 2024

Frontend Developer

• Designed, developed, and maintained responsive web applications with a focus on user experience and performance.

• Translated UI/UX wireframes into interactive and visually appealing web interfaces using modern frontend technologies.

• Optimized frontend performance, ensuring fast load times and smooth user interactions.

• Integrated RESTful APIs, managed state efficiently, and implemented dynamic client-side functionalities.

• Worked closely with backend developers and other stakeholders to ensure seamless integration of frontend and backend systems.

Skills & Competencies

- **Programming Languages:** Javascript, CSS, Typescript, C++
- **Robotics Tools and Platforms:** ROS (Robot Operating System), Arduino, Raspberry Pi,Microbit
- **Frontend development:**Vue, vuetify, Bootstrap, React
- **Software and Tools:** Git, Github, Postman
- **Other Skills:** Debugging, robotics algorithms, real-time systems

• Conducted code reviews, provided feedback, and maintained clean, scalable, and reusable code.

Education

Olabisi Onabanjo University, Ago Iwoye, Ogun state

B.Sc.computer science and education 2019- 2023
